DARK PROVIDENCE

WHEN YOU LOOK INTO THE DARKNESS, THERE'S ALWAYS SOMETHING LOOKING BACK...

SERIALIZED TELEVISION SERIES
BASED ON A SCRIPTED PODCAST BY PATRICK HAYLE, CLARK HUGGINS & ZUZANNA SZADKOWSKI

THE SERIES

Disgraced investigative journalist Gray Sheridan returns to Providence to settle his grandfather's estate and close the door on the town for good. But when a macabre ritual murder shocks the city, Gray's investigation draws him into an uneasy partnership with a local psychic and into the path of a generations-old occult society hidden among the upper echelons of old New England money... a society documented suspiciously well among his grandfather's mementos.

THE WORLD

Set against the gothic history of Providence, Rhode Island, the show blends the psychological complexity of a character-driven drama with the escalating dread of a supernatural horror thriller. Beneath the city's quirky modern charm and storied institutions lies a sinister legacy of wealth, corruption, and occult ambition stretching back to the opulent mansions and clandestine social clubs of the 1930s. As ritualistic murders expose a generations-old conspiracy to harness forces beyond human understanding, the series toggles between past and present, revealing the terrible consequences of power pursued without restraint. Grounded in deeply flawed, emotionally complex characters, DARK PROVIDENCE explores what happens when ordinary people confront extraordinary horrors - and discover that some encounters with darkness leave marks that never fade.

PRINCIPAL CHARACTERS

GRAY SHERIDAN

A sharp, ambitious investigative journalist whose career implodes after his bestselling exposé is revealed to be largely fabricated. Gray returns to Providence desperate for redemption and a story that can restore his reputation. His investigation of a string of grotesque murders entangles him in a supernatural conspiracy tied to his own family history, forcing him to confront truths far more disturbing than anything he's ever reported.

HARPER ZELEKER

A deeply troubled but genuinely gifted psychic, Harper has constructed a deliberately unremarkable existence to shield herself from terrifying visions of a reality beyond our own. When her visions connect to a ritualistic killer terrorizing Providence, she's forced to abandon her carefully cultivated isolation and confront supernatural forces that threaten to destroy her fragile grip on reality.

DR. MARCUS HOLLAND

A charismatic, impeccably polished surgeon and pillar of Providence society, Dr. Holland secretly leads the Socium Obscura, an elite occult organization dedicated to acquiring power beyond the physical world. More than a century old and masquerading as his own grandson, Holland has spent generations manipulating supernatural forces to extend his life - and will sacrifice almost anything to complete the dark ambitions he began pursuing over a hundred years ago.

SEASON 01 | THE APIARIST

Gray Sheridan returns to his childhood home of Providence following a career-ending scandal and the death of his estranged grandfather. But when a gruesome murder transforms a victim's corpse into an elaborate human beehive, Gray sees an opportunity to reclaim his reputation by pursuing the killer dubbed "The Apiarist." His investigation draws him into an uneasy alliance with Harper Zeleker, a troubled psychic whose terrifying visions connect her to the murders, and Delilah Holland, a wealthy childhood friend with secrets of her own. But as the bodies accumulate, the unlikely allies discover that the killer's grotesque crimes are connected to something far more sinister: a generations-old occult conspiracy embedded in Providence's wealthy elite.

At the center of that conspiracy stands Delilah's father, Dr. Marcus Holland, a respected surgeon and secret leader of the Socium Obscura, a cult dedicated to harnessing supernatural forces. Having unnaturally extended his life for more than a century, Holland's determined to complete a dangerous undertaking begun in the 1930s - but the Apiarist's murderous agenda threatens to unravel his plans. As Gray uncovers his own family's disturbing connection to the Socium, the investigation becomes a race between competing forces to control an ancient, otherworldly power. Their collision culminates in a catastrophic confrontation that shatters Gray and Harper's understanding of reality - and reveals that the horrors they've encountered are only the beginning.

LOOKING FURTHER INTO THE ABYSS

SEASON 02 | BODY & SOUL

The book scandal that destroyed Gray's career resurfaces, revealing that the illegal organ trade he investigated concealed a nightmarish underground economy of stolen bodies, necromancy, and monstrous resurrections far more shocking and dangerous than he realized. And that network pre-dates even the Socium.

SEASON 03 | RIVAL FACTIONS

A wave of countryside deaths introduces a rival occult faction whose pursuit of forbidden pleasures collides with the Socium's ancient powers and claims to the land. In both the 1930s and the present, revelations about Gray's family and Harper's increasingly uncontrollable abilities deepen the personal stakes.

SEASON 04 | THE FOLD BEYOND

Gray, Delilah, and Dr. Holland become trapped in the Fold Beyond and Harper leads a desperate effort to bring them all home and thwart the Socium's growing ambitions. Interwoven throughout, the Socium's actions in the 1930s reveals how the betrayals, rivalries, and catastrophic choices they made then have unleashed the darkness now threatening to consume them all.
